

SYPHON (PIGTAIL)

BR-SYP

pigtail syphon TUBE
BR-A032
1/2" NPT

Pigtail Syphons from Blue Ribbon Corporation are typically used to act as a cooling or warming leg for applications where the process temperature may be higher or lower than the "normal" working temperature range, as specified by NIST B40.1, in relation to the instrumentation. Temperature extremes can lead to measurement inaccuracy, or otherwise shorten the life span of instrumentation that is not specifically designed for severe duty applications.
